ASTAN NEHBANDAN GRANITE

The image shows a close-up, high-resolution view of a dark, textured surface, which is flamed black granite. The texture is highly irregular and granular, with numerous small, light-colored mineral inclusions and pits scattered throughout the dark matrix. The lighting is somewhat uneven, creating subtle gradients of dark grey and black, which emphasizes the rough, weathered appearance of the stone.

com

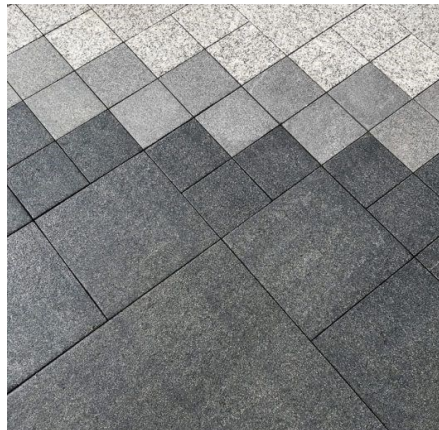

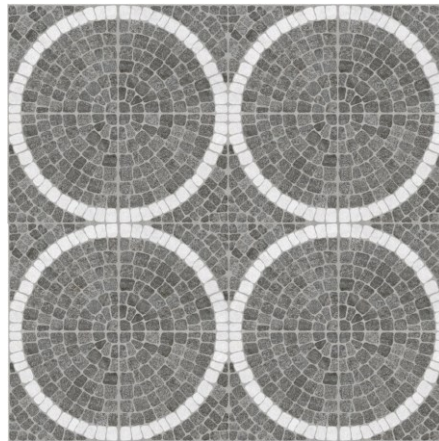

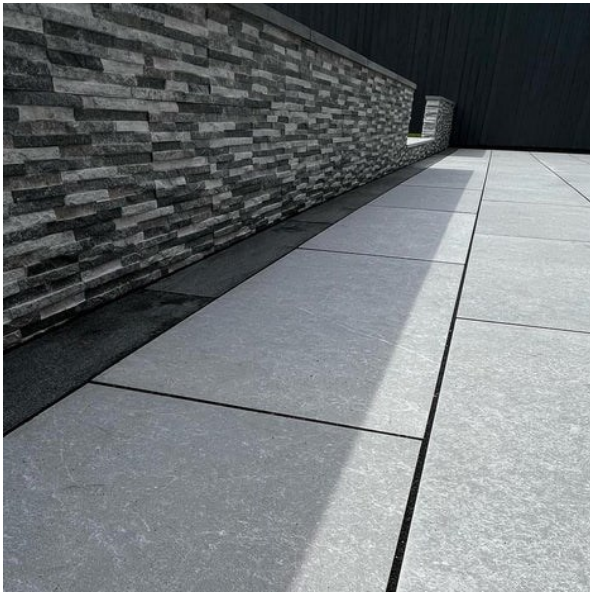

The image shows a close-up of a dark, textured surface, likely a piece of granite. The surface has a fine, granular texture with various shades of grey and black. There are subtle vertical lines or grooves running across the entire surface, giving it a ribbed appearance. The lighting is even, highlighting the texture of the stone.

BLACK ZANJAN LEATHERED FLAMED GRANITE

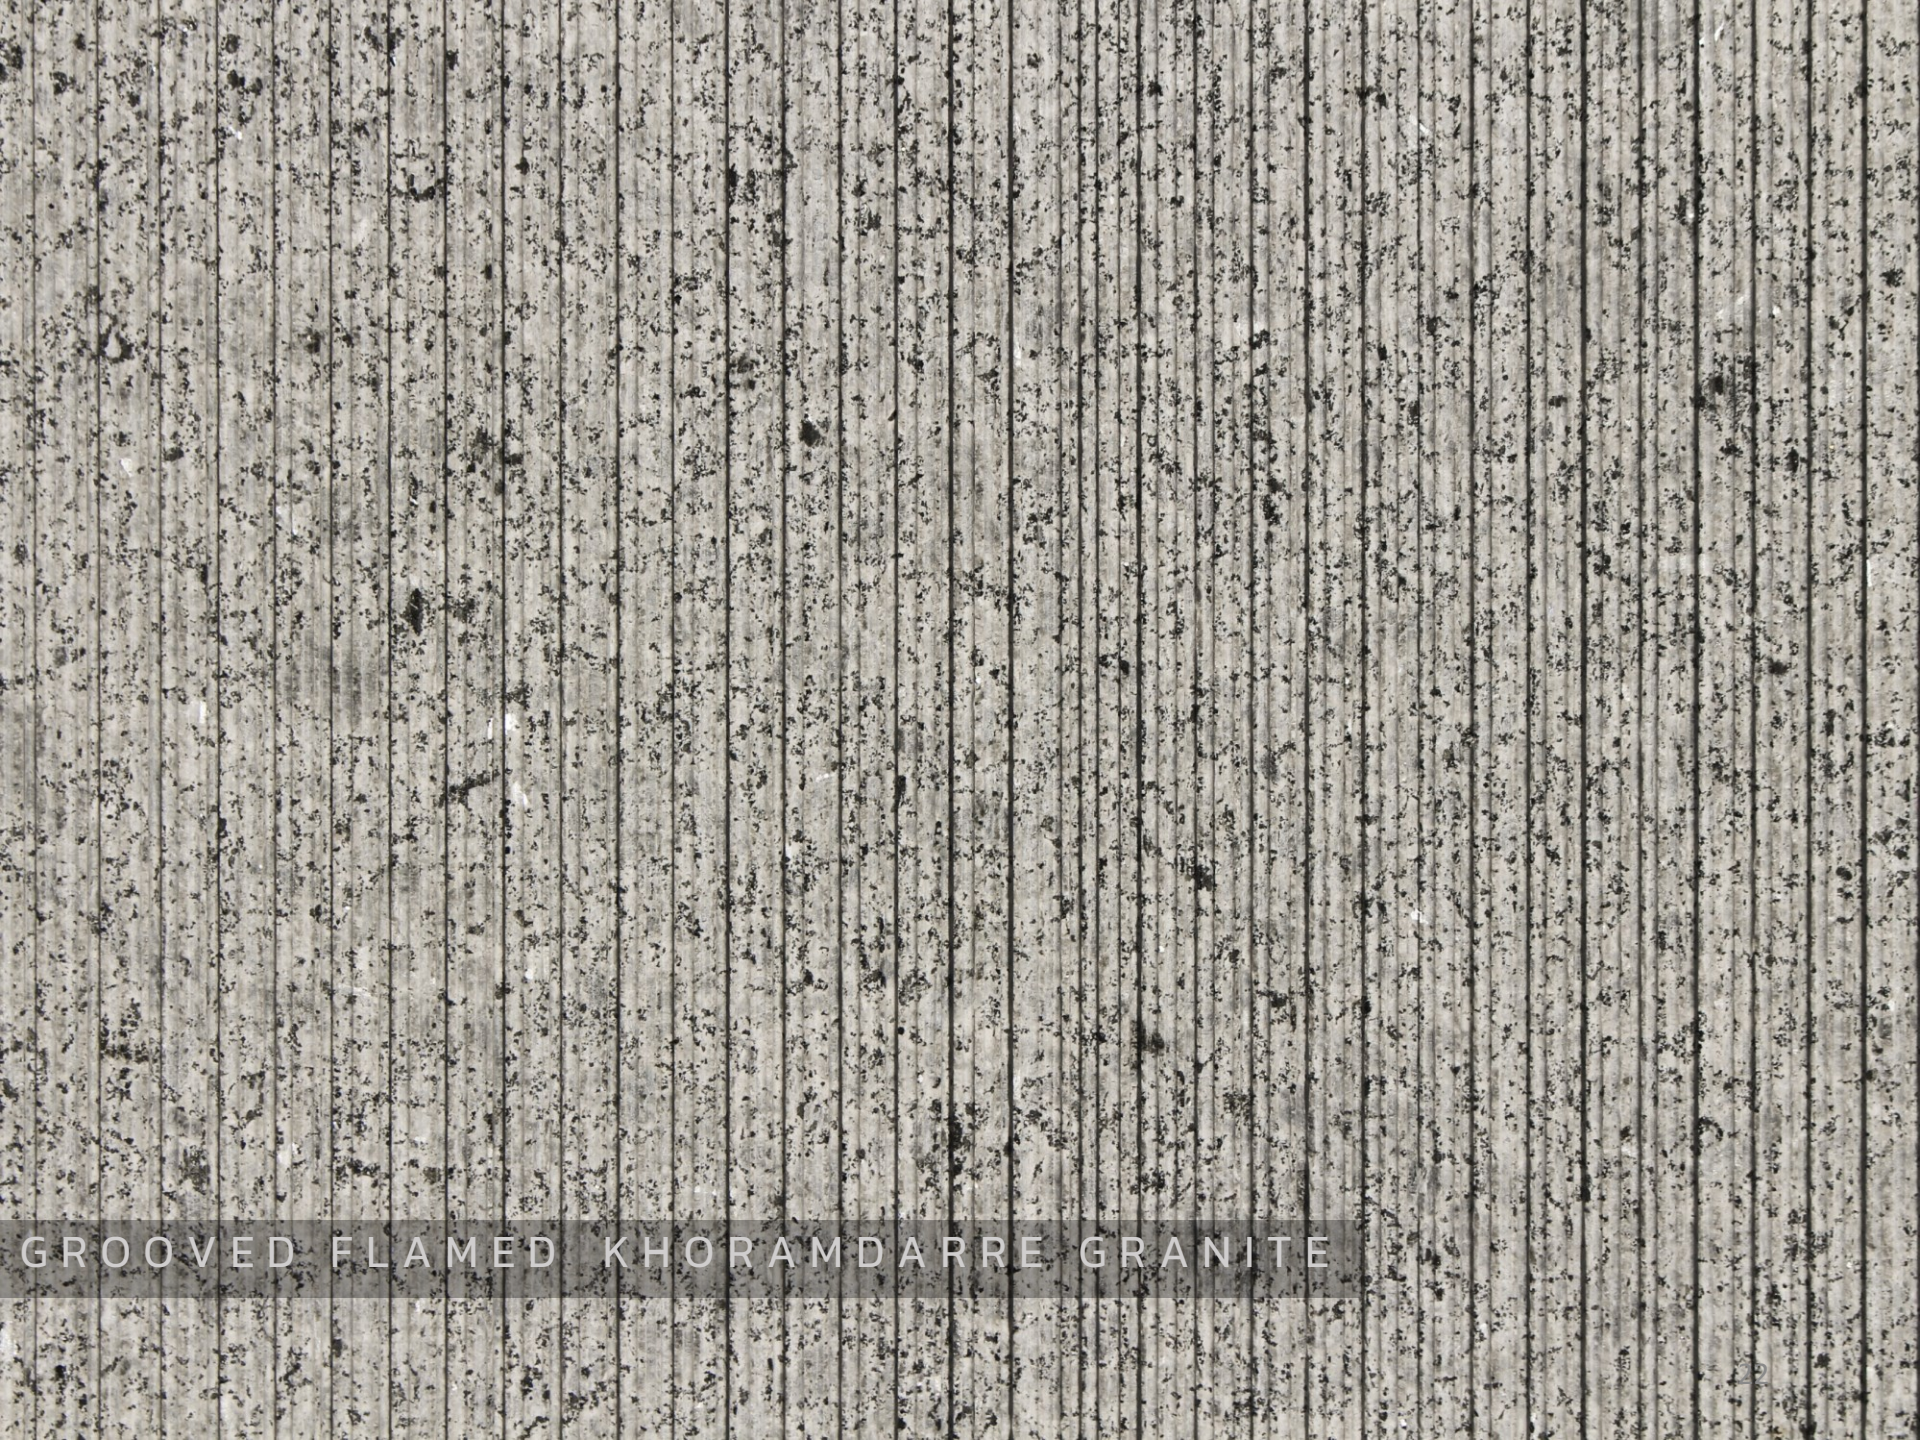

FLAME NATANZ SALT & PEPPER GRANITE

The image displays a close-up, high-resolution view of a granite surface with a flamed finish. The texture is highly irregular and granular, characterized by a dense distribution of dark, charcoal-colored mineral grains against a lighter, greyish-brown background. The surface appears slightly uneven and matte due to the thermal treatment. A semi-transparent dark grey horizontal bar is positioned at the bottom of the frame, containing the text 'FLAMED KHORAMDARRE GRANITE' in a clean, white, sans-serif typeface.

FLAMED KHORAMDARRE GRANITE

The image shows a close-up of a granite surface with a flamed texture, characterized by numerous small, dark, irregular spots and pits. Overlaid on this texture are vertical, parallel grooves that run from the top to the bottom of the frame. The grooves are evenly spaced and have a consistent depth, creating a rhythmic pattern across the entire image.
